Onder Ay

ayonder.m@gmail.com (605) 270-7469 Madison, SD linkedin.com/in/onder-ay github.com/KIYIM

Education

Dakota State University Madison, SD • Jan 2025 – May 2029

Bachelor of Science in Computer Science

Skills

Languages: C, C++, C#, Java, x86/x86-64 Assembly, SQL, Rust

Frontend & Frameworks: Next.js, React, Tailwind CSS, HTML5/CSS3, Radix UI / shadcn/ui

Backend, Systems & Protocols: REST APIs, Server-Sent Events (SSE), WebSockets, Multithreading, Linux/Bash

Developer Tools: Git, GitHub, Cursor, Vercel, Node.js, npm/pnpm, Visual Studio / VS Code

Languages: Turkish (Native), English (Fluent / C2)

Projects

CollabRoom (Full-Stack & Real-Time Sync) github.com/KIYIM/collabroom

- Engineered an interactive collaborative code editor supporting simultaneous multi-tab document editing and live cursor tracking via Server-Sent Events (SSE) and BroadcastChannel.
- Built an asynchronous backend execution pipeline (/api/run) evaluating user submissions across Python, JavaScript, and C++ with automated execution timeouts and runtime telemetry.
- Implemented client-side virtual workspace persistence, dynamic syntax detection, and single-file download exports.

SentinelSec Security Analyzer (Security Engineering & Tooling) github.com/KIYIM/SentinelSec-SecurityAnalyzer

- Built an automated static security analyzer detecting known dependency vulnerabilities, misconfigurations, and OWASP Top 10 security risks across target codebases.
- Designed rule-matching parsing engines that evaluate AST structures and generate structured JSON audit logs with automated remediation recommendations.
- Integrated CLI workflow triggers to automate pre-commit security audits within CI/CD pipelines.

TitanKV (In-Memory Storage Engine)

- Designed an in-memory key-value database engine supporting GET, SET, DEL, and SCAN queries with microsecond level execution profiling.
- Implemented a Write-Ahead Logging (WAL) mechanism to persist sequential mutations and provide crash-recovery simulation.
- Developed a real-time administrative dashboard tracking throughput (ops/sec), memory allocation breakdown, and p99 latency metrics.

Experience

Community Center Madison, SD

Front Desk Representative Oct 2026 – Present

- Manage daily reception operations, facility access control, and membership inquiries for a high-traffic community facility.
- Handle member account registrations, schedule reservations, and resolve customer inquiries with prompt, professional service.

Sodexo Madison, SD

Food Service Associate Jun 2025 – Oct 2026

- Executed high-volume point-of-sale cashier transactions during peak campus meal rushes with consistent register reconciliation accuracy.
- Cross-trained across kitchen prep, dining floor restocking, and sanitation standards, collaborating with dynamic shift teams in a fast-paced environment.
